Program Highlights

Coverage for the most popular medium duty truck engines 1995-2004 including:

- GMC - School Bus Chassis
- Topkick Series
- Freightliner FL - 70

Cost-effective alternative to new units without compromising on quality.

Full support:

- 12 month, unlimited-mileage warranty
- 90 day, no-hassle warranty
- R & R on qualifying Delphi remanufactured injector warranty claims
- Over 30 years of technical expertise available through our toll-free technical hotline

The Delphi Advantage

With 60 years of experience in OE manufacturing, Delphi Diesel Aftermarket has the expertise and know-how necessary to deliver a quality remanufactured product.

Each injector is completely disassembled, cleaned and examined for wear and breakage. All critical components and worn out or non-functioning parts are replaced with new parts to help ensure reliability and performance. Then each injector is reassembled and tested for compliance in fuel delivery, injection pressure and timing.

Delphi is committed to quality. We inspect all critical components every time and replace:

- Nozzle
- Solenoid
- NOP spring, shim, stop
- Check balls
- All O-rings
- Armature and solenoid screw

Nationwide warranty through our authorized service network.

Did You Know?

Reducing the level of emissions is critical in today’s diesel engines. Delphi is leading this technological revolution with its advanced fuel injection systems.

The leading causes of injector failure include:

- Poor Fuel Filtration
- Fuel Contamination
- Incorrect Installation

It is good practice to confirm the root cause of the failure before installing replacement injectors.
