Delphi Technologies

Remanufactured Bobcat Pumps and Injectors

Program Highlights

- / New nozzle, NOP spring, control valve and unique trim code to ensure optimal performance and service life
- / New inlet metering valve, new head assemblies and new transfer pump assembly to guarantee OE quality, performance and durability
- / 100% O-ring and seal replacement to ensure proper sealing
- / 90 day, no-hassle warranty
- / 12 month, unlimited-mileage warranty

Remanufactured Bobcat Pumps and Injectors

With 60 years of experience in OE manufacturing, Delphi Technologies has the expertise and know-how necessary to deliver a quality remanufactured product. Delphi Technologies is offering two part numbers covering the Bobcat injectors, as well as two part numbers covering the pumps.

In our remanufacturing facility, all injectors and pumps are fully disassembled. Each component is then thoroughly cleaned and inspected. Units are then reassembled using new components where required and tested on specialized test equipment for correct fuel, timing and pressure.

Delphi Technologies

Trusted for Remanufactured Diesel Injectors

You can trust Delphi Technologies. Each Delphi Technologies remanufactured injector is completely disassembled, cleaned and examined for wear and breakage. Critical and worn components are replaced to ensure reliable performance. Finally, injectors are reassembled and tested. We provide a unique trim code with applicable C7, C13 and C15 injectors for proper engine performance. With over 60 years of OE technology and expertise, our green and global solutions ensure your parts are ready for the road ahead.

Delphi Technologies

Remanufactured ISX Injectors

Program Highlights

100% replacement of critical nozzle check valve components (spring seat, retainer, valve seal and spring)

100% O-ring replacement for proper sealing, filter and HP seal replacement 90 day, no-hassle warranty & two year warranty or 125,000 miles on highway

Premium Remanufactured Injectors

Our customers will receive a premium remanufactured injector produced by and under the technical expertise of one of the largest Original Equipment diesel fuel injection manufacturers in the world. Delphi Technologies is offering three part numbers covering the most popular ISX applications.

Each ISX injector is tested on a custom production test machine where all units are overchecked for leaks, injection pressure, fuel delivery and timing. The nozzle body, nozzle body plunger assembly and check valve are critical to product life and performance and will give our customers the quality and durability they can rely on.

THE SAME IS TRUE FOR YOUR TRUCK'S DPF.

Re-manufactured DPFs are used parts that have been cleaned and are being re-sold. You are essentially paying a premium price for a cleaning service for a used DPF that could be close to the end of its usable lifespan.

Don't gamble with re-man; Buy a new **ROADWARRIOR®** DPF today!
